- App Service Static Web Apps

Azure Static Web Apps is a modern web app service that offers streamlined full-stack development from source code to global high availability.

Benefits include:

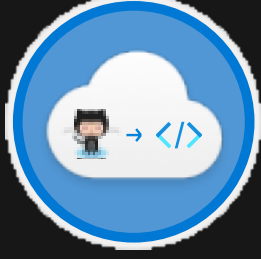

- Productivity from local development to GitHub native workflows for CI/CD
- Managed global availability for static content
- Dynamic scale for serverless APIs
- Streamlined management including custom domain configuration and authentication and authorization
- Seamless developer experience and CI/CD
- Tailored developer experience that includes a Visual Studio Code extension

## Prerequisites

- [Node.js LTS and Git](#)
- [GitHub](#) account
- [Visual Studio Code](#)
